We expect also to keep in stock in Asheville a full line of ornamental shrubbery of the highest class, and will, during the planting season, meet every demand for such stock, and so systematically arrange its planting, that beauty and similarity will crown all material combinations.

Our aim is not only to produce effects that will sustain our reputation, and give ample scope to the exercise of our talents, but to order every movement that our professional skill will be entirely subordinated to the greater demands of the home-maker.

PREFACE

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but simply will be called dead or a has-been. In business circles, the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for

EFFICIENCY

which fact is being more vividly demonstrated every day; for there are ten towns today with modern improvements where there was only one a decade ago; there are thousands of **City Directories** in use now where there were comparatively few just a short period ago.

PRO BONO PUBLICO

These words truly state just what the City Directory is—a publication for the benefit of the public; for many years the City Directory has been recognized as the standard book of reference regarding the citizenship of a community and its commercial importance, but it is only of recent years that the business world has awakened fully to the realization of this need; and though the world and mankind today is facing the greatest calamity known to the human race, for never was the saying so true as now, that rivers run red with blood, but amid strife and conflict, the world moves on, business turns a deaf ear and goes ahead, for the great American Republic knows no such word as stop—forward, ever forward, is her commercial as well as her battle cry.

It is, therefore, with pleasure that we present Volume XVII, the first war edition of the Asheville City Directory.

THE COMMERCIAL SERVICE CO.,
E. H. MILLER, Pres.

Yes, this is a good strong, durable kind, and a fence is a good thing in its proper place,

BUT DON'T FENCE IN YOUR BUSINESS

The Business Man or Merchant who says he does not need to advertise as he has more business than he can handle, doesn't get my trade if he puts it that way. No, I prefer to help the fellow who needs it. Of course that man has no use for a City Directory, for he is absolutely contented.

WHAT'S IN A NAME?

(Perhaps more than you think)

It was the learned Paul who said that a good name is to be valued more than riches and 'twas no other than the great Shakespeare who said, "Good name in man or woman is the immediate jewel of their souls," but these are deep thoughts of deep thinkers, briefly expressed in words and do not apply in an ordinary sense to names in their varied forms or the general usages to which they are put.

CAN NOT DO WITHOUT NAMES

Names are in vogue everywhere. The world would be a complete failure without names, for there would be confusion that would far surpass the tower of Babel incident. The world could not do business; nations and empires could not progress, for men could not communicate with each other and the lover's ardent appeals would be no more and the world bereft of love.

NEEDED IN EVERY RELATION OF LIFE

Hence the world can not get along without names. The success of the educational world, the religious world, the social world, the commercial or business world, depends on names.

CAN NOT TRUST TO MEMORY

The world is too large, too big for men to trust entirely to memory. Many a time a person wants to know where such and such a place of business is, or where such and such an article may be purchased, or where he can find the address of this or that person.

WHAT YOU SHOULD KNOW

What do you tell them? What is your answer? Do you know yourself? These may be rather pertinent questions but they are things you should know, and the answer is easy, requires only three words.

THE CITY DIRECTORY

ERNEST H. MILLER, PUBLISHER

A valuable book? you ask. Well, yes. We venture the assertion that outside of the Bible, there is no book in such general use as the City Directory. Does every one use it? Well, no; there are some who can't and there are some who do not use it as much as they should, neither does every one use the Bible as they should, but that is not our fault. We can not compel people to use the Directory any more than we can compel people to read the Bible. But here is the man who does not hesitate to tell every one what a good thing it is.

1. Locate the fire alarm box nearest your home
2. Stay near the box when pulled for fire, to direct the firemen
3. In case of fire, call Fire Department. Speak distinctly when calling the department by phone. Give the exact location of the fire. Don't say: "Come to my house quick."
4. Keep on the sidewalk when apparatus is going to a fire
5. Give the right-of-way to the fire department when it is responding to an alarm
6. Realize that the fire department is ready at all times to respond to fires within thirty seconds after an alarm is sent in. That delay in sending in an alarm is responsible for nearly every large fire that occurs. With snow on the ground and a two-mile run up hill, the department must be notified quickly to be of any service. The most efficient service is rendered if the department arrives within three minutes after the fire breaks out
7. Own a fire extinguisher if possible.
8. Have two six-quart pails always handy
9. Give the firemen credit when they deserve it
10. Look for exits in theatres, halls and public buildings

The City Directory

Why?

There's a Reason

Because, just as the live wire which carries the current which turns the wheels of numerous industries, so does the City Directory carry the Lights to the buyer seeking goods in your line.

Because. just as the magnetic needle points the way to the mariner, so does the Directory point the way which brings together the Buyer and Seller.

Nuff Sed

Up-to-Date Methods

In this Progressive Age the City Directory is found on the Busy Man's desk.

Because he is wise to its true value, the cost of about a penny a day means to him the Saving of Dollars.
